

PERSONAL PORTFOLIO WEBSITE

Project Documentation

Project Title:

Personal Portfolio Website

Submitted By:

Adlin A

Intern ID:

CITS3666

Organization:

Codtech IT Solutions Pvt. Ltd.

Domain:

Frontend Web Development

Duration:

4 Weeks

Submitted as part of the
Frontend Web Development Internship
at
Codtech IT Solutions Pvt. Ltd.

Project Overview

The Personal Portfolio Website is a responsive web application developed using HTML and CSS. The project showcases educational background, technical skills, projects, career goals, and contact information in a professional and visually appealing format.

Objectives

- Create a professional online portfolio
- Showcase skills and projects
- Develop a responsive website
- Improve frontend development skills

Technologies Used

- HTML5
- CSS3
- Responsive Web Design

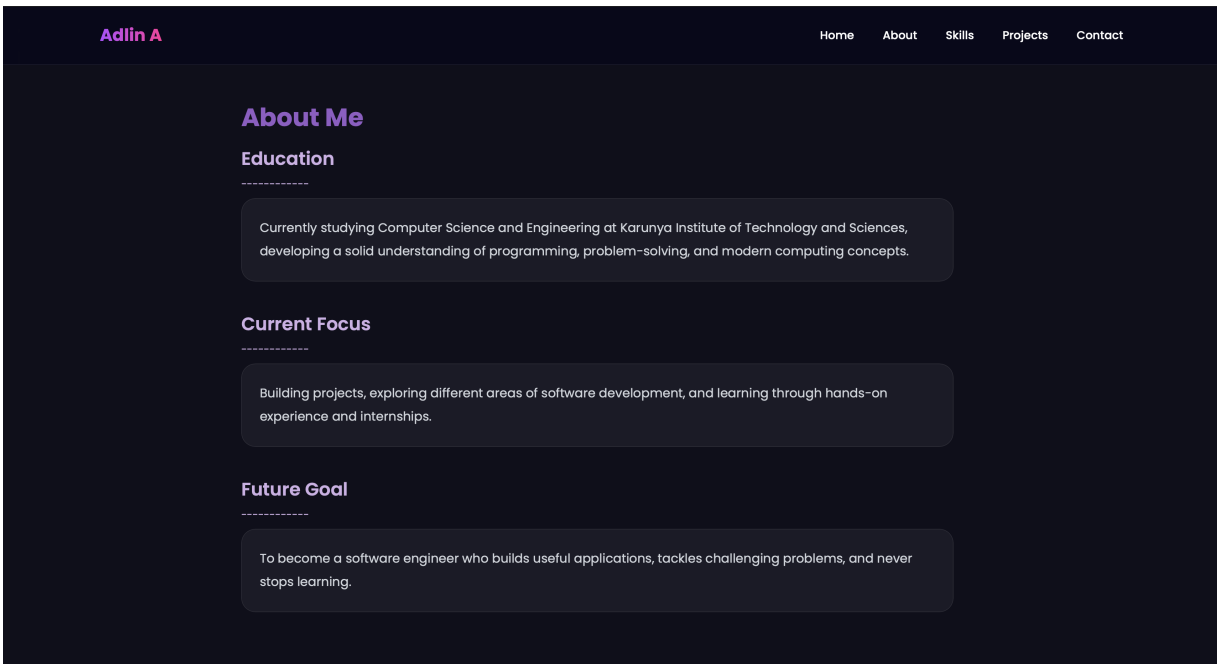

Features

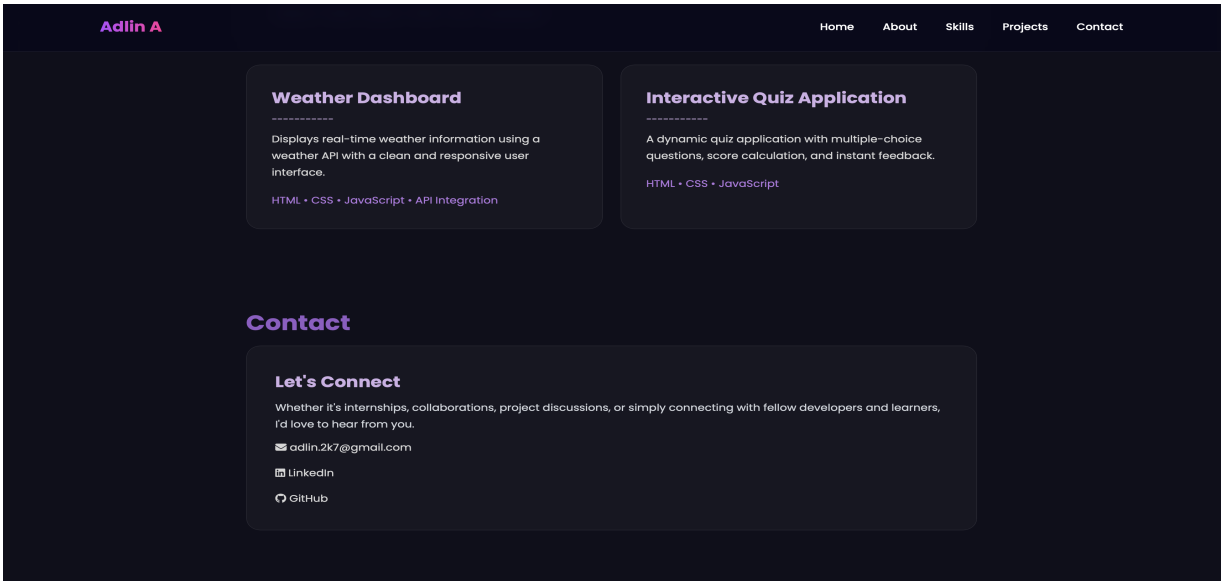

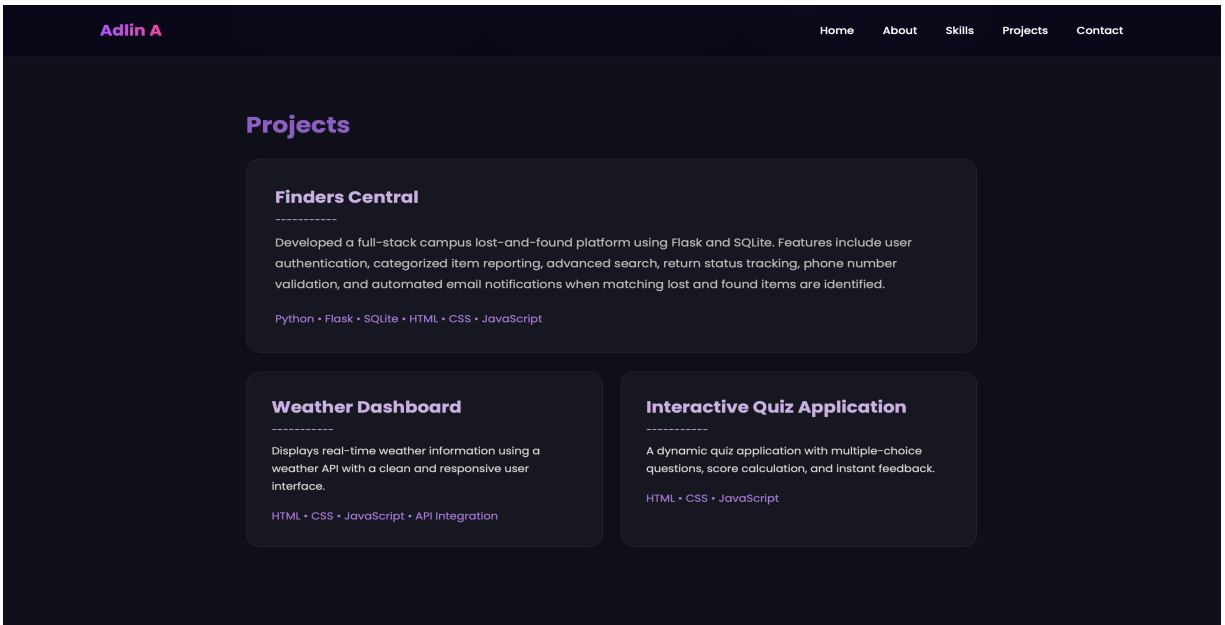

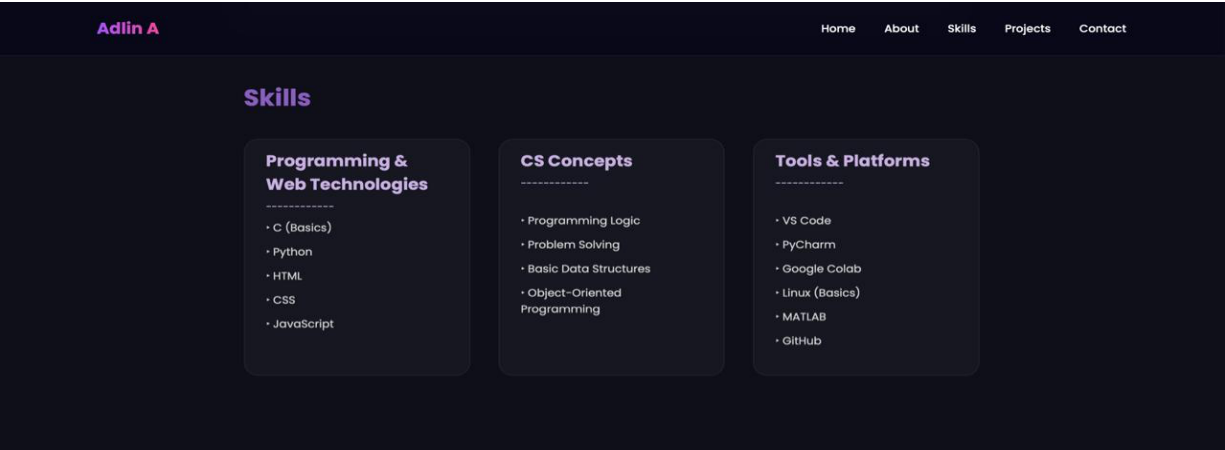

- Hero Section
- About Me Section
- Skills Section
- Projects Showcase
- Contact Section
- Mobile Responsive Design
- Smooth Navigation

Project Scope

The project serves as a digital portfolio for academic, internship, and professional opportunities. It provides a centralized platform to present technical skills, projects, and personal achievements.

Hi, I'm

Adlin

Computer Science Student

Aspiring Software Engineer

Passionate about web development and software engineering, I enjoy building practical projects that strengthen my programming skills and problem-solving abilities. Through hands-on learning and continuous exploration of new technologies, I strive to create useful, user-friendly applications and grow into a skilled developer.

Future Enhancements

- Add JavaScript animations
- Add downloadable resume
- Add live project links
- Add additional projects

Conclusion

The Personal Portfolio Website successfully provides a professional platform to showcase personal information, technical skills, projects, and career goals. Through this project, I strengthened my understanding of HTML, CSS, responsive design, and frontend development principles. The website maintains a clean user interface and delivers a consistent experience across desktop and mobile devices.
